

Returning to School and Navigating COVID-19

Notes from the Nurse's Office

The health, safety and wellbeing of our students at Bishop Fenwick is our priority. Although the Coronavirus pandemic has created a “new normal” the CDC has instituted some important measures that we can take to reduce the chances of transmission. We know that it is not one single measure that will be effective but a myriad of measures. **As detailed in our Fenwick Best Return to School Plan, in accordance with Federal, State and Local recommendations; we will be following the guidelines as listed below:**

- Physical Distancing
- Smaller class size
- Use of outdoors for classroom space whenever possible
- Mandatory Face Coverings
- Promote Strict Hand Hygiene (sanitizer in all classroom spaces and handwashing)
- Cleaning and Disinfecting of frequently touched surfaces
- Institute sick day guidelines- per CDC
- Adhere to travel restrictions and COVID-19 exposure quarantine requirements
- Modifications to the Nurse's Office to accommodate the anticipated varied health needs of our students

Together, we will navigate this journey as we partner in our efforts to keep our Fenwick Community well.
